PROFILE

Enthusiastic and well-organized Java developer with 9+ years of experience. Passionate about clean code and SOLID principles. Skilled in Kotlin, Spring, Spring Boot.

EXPERIENCE

Lead Developer, Lenta; Moscow, Russia

Dec 2022   Present

- Participated in the development of promotion service for Lenta and Lenta Online (lenta.ru).

- Lead the team of 4 backend developers, 1 QA engineer, and 2 system analysts.

- Tech stack — Kotlin, Spring Boot, MongoDB.

Senior Java Developer, Utkonos; Moscow, Russia

Feb 2020   Dec 2022

- Participated in the development of the brand new WMS (Warehouse Management System) for new warehouses of Utkonos (utkonos.ru).

- My team developed and maintained one of the crucial parts of the WMS – order picking and shipping, inventory management.

- Took part in 24/7 supporting activities on production environment (log analyzing via Kibana and real-time problem solving).

- Had a bit of team leading experience (team management, held daily stand-up meetings, conducted technical interviews)

- Tech stack – Java 17, Kotlin, Spring Boot, Lombok, PostgreSQL, Kafka, Kubernetes, Camunda BPM.

Senior Software Engineer, Sberbank; Moscow, Russia

Jan 2019   Feb 2020

- Participated in the development of the IDP (Intelligent Document Processing) system for Sberbank's internal processes from scratch.

- Created several crucial microservices for integration with external systems via JMS and SOAP.

- Implemented the initial version of CI/CD pipeline (Docker, Jenkins, OpenShift).

- Integrated our application with the ELK stack for log aggregation.

- Worked closely with system analysts and architects to ensure our customers' requirements.

- Performed code reviews and took part in the onboarding of new developers.

- Held daily meetings and reported to managers when my team leader was absent.

- Tech stack – Kotlin, Spring Boot, Kafka, Ceph, OpenShift.

Software Engineer, Sberbank-Technology; Moscow, Russia
Jan 2016   Oct 2018
- Participated in the development of Sberbank's ECM system based on IBM FileNet.

- Created several Docker images for faster deployment on QA environment.

- Ensured code quality via creating unit and integration tests.

- Took part in analyzing customers' requirements together with the team of system analysts.

- Tech stack – Java, Scala, Spring, Oracle DB, SOAP, JMS, IBM WebSphere.

Software Engineer, ATC Basis; Stupino, Russia
Jul 2013   Jan 2016
- Participated in the development and maintenance of MES system at several factories (confectionery and pet food) of Mars, Incorporated.

- Tech stack – Java EE, Oracle DB, Hibernate, Tomcat, JavaScript, jQuery, SVN, Eclipse.

Software Engineer, Research institute "Energiya" of the Federal Guard Service
(FSO); Stupino, Russia
May 2011   Jul 2013
- Developed an application for aggregating and managing elections' results (Delphi, MS SQL Server).

- Developed an Android application prototype for viewing and managing data about regions of the Russian Federation (Java, Android SDK).

EDUCATION
Russian State Technological University named after K.E. Tsiolkovsky (MATI), Moscow, Russia — Engineer's degree, 2010

SKILLS
- Java, Kotlin

- Spring, Spring Boot

- JMS – ActiveMQ, IBM MQ

- RESTful web services

- Apache Kafka

- Git

- DevOps – Docker, Jenkins, Kubernetes, OpenShift
